Man With A Gun

The man with the gun (Dr. J. A. Mathews) is hidden behind the boy who has just been shot with Rubella (German measles) vaccine in Sunday's Rubella clinic held at three county schools. The youngster is Jr. Sayre, 6, of Spout Spring. For other boys and girls, ages one through eleven, who may have missed the vaccination (and consequent protection for themselves and their families against Rubella) the Appomattox County Health Dept. offers free vaccine each second and 4th Tuesday from 10:30 to 12 noon. A previous Rubella clinic in April reached many pre-schoolers up to fourth grade, and it is hoped that all boys and girls of the county in the 1-11 age bracket will receive this important vaccination. To The Editor

Editor, Appomattox Virginian

October 3, 1970, citizens will be given the opportunity to vote "yes" or "no" on the following question: "Shall liquor be allowed to be sold by the drink as provided in Section 60 (which provides for levying it to the qualified voters to decide whether or not to prohibit the sale of whatever else may be) of the Constitution of Virginia?" If this proposal, it is supposed, is voted upon favorably, it is supposed that the General Assembly of Virginia will be permitted to legislate in addition to the sale of liquor by the drink, the sale of wine and beer. If this proposal is passed, it is supposed that this matter will be taken up by the General Assembly at its next session and a bill or bills introduced to put this proposal into effect.
